HEALTHCARE & CLINICS

Keep care connected.

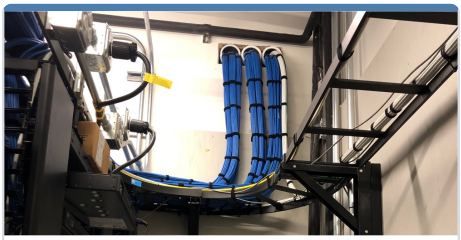
Phones, network cabling, and security for hospitals, clinics, and rural health systems, from one licensed team.

When a nurse can't reach a provider, a workstation drops off the network, or a med room door is left open, patient care feels it first. SCTi designs, installs, and supports all three systems together, so your staff has one number to call.

VOICE

Business Phone Systems

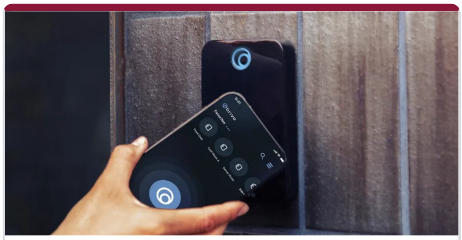
- Overhead paging and direct extensions that reach the right floor fast
- Calls follow providers between desk phone, mobile, and desktop app
- CAIRO AI receptionist answers and routes after-hours patient calls



DATA

Structured Cabling & WiFi

- Cat6 and fiber built to carry EHR, imaging, and Wi-Fi without slowdowns
- Clean, labeled closets that speed up troubleshooting
- Remodel wiring scheduled around patient areas that stay open



SECURITY

Security & Access Control

- Brivo badge access for med rooms, records, and staff-only doors
- UniFi cameras on entrances, parking, and pharmacy areas
- Camera placement planned with patient privacy in mind

- ✓ Serving Central Texas since 1987
- ✓ One team for phones, cabling & security
- ✓ Licensed Texas security contractor
- ✓ Same-day scheduling across the Texas Triangle
